RE: FELTON BOOKBINDING LTD.

Master binder Keith Felton and his artisans are world class. Talent, innovation, trustworthy, dedication, personable... words that readily spring to mind when thinking of Felton Bookbinding.

ANTARCTICA, our project was massive in its scale — 1000 copies of a hand-bound full-leather 27-pound tome. We searched the globe for a bindery that could handle such a challenge. Having invested two years working with several binderies on prototypes, Felton won our respect and the contract. Several years later, our edition complete, we gratefully thank Felton Bookbinding for their major contribution in helping us to fulfill our dream.

Truly it has been a pleasure to work with Felton, a firm where the highest standards humanly possible are consistently reached.

We are honoured through this business relationship to have become personal friends with Keith and his master binders.

Sincerely,

Pat and Rosemarie Keough
